Product highlights

Crystal Clear
Combining picture enhancements like Contrast plus and color improvement, Crystal Clear improves picture depth.

Active Control
Active Control ensure that noise and sharpness improvements are continuously made at a rate of 60 times per second. By continually adjusting picture setting over 3,000 times per minute, Active Control Plus ensures that the viewing experience is optimized.

Quality Mono sound
Crisp and clear mono sound

4x3 Expand
4x3 Expand enables widescreen movies to be viewed on a 4:3 aspect ratio TV screen by removing the black bars at the top and bottom of the image. You are able to watch full-screen movies without compromizing on picture quality and resolution.

Smart picture
Smart Picture button on the remote control enables one-touch selection of various preset optimized image settings to suit different TV program. Do refer to the DFU for the various Smart Picture modes.

Signal Strength Indicator
The signal strength indicator displays signal strength when you change the channel, and continuously tracks and updates the incoming signal strength.

Teletext/closed caption-ready
The ability to display Teletext and/or Closed Captioning where available. Teletext is an electronic communications system in which text information is broadcast along with television signal to allow sets equipped with decoders to display extra information. Closed Captioning displays visible text for spoken audio.

Front AV & Headphone
Front Mono Audio & Video input & Front Headphone
